From almost 25 years Flatout Gaskets has been testing and developing the greatest products with the finest materials available on the market. We have gaskets for everything and we can also do custom work. We will make what you need for your application or fill a void where something has been discontinued from the factory or our competitors. Join the growing list of companies, racers and engine builders who rely on Flatout Gaskets to seal the deal.

PART NUMBER STRATEGY CONTENTS

FLATOUT HEAD GASKETS PART NUMBER STRATEGY

'COMPLETE HEAD GASKET PART NUMBER'

HOW TO ORDER:

When ordering Flatout Copper Head Gaskets, keep in mind that all Flatout Copper Head Gasket part numbers incorporate thickness and bore size.

1. BASE PART NUMBER: See the Flatout Catalog or Website to find the gasket part number for your engine application. For example, the Chevrolet Small Block 350 has three possible head gasket choices. Let's choose 9001 for this example.

2. THICKNESS AVAILABILITY: Flatout Copper Head Gaskets are available in many thickness choices, including - .031", .040", .045", .050", .056", .060", .064", .072", .076", .080", .086", .090", .095", .1000", .105", .110", .120", and .125". The gasket thickness becomes abbreviated in our numbering scheme. Let's choose .072" thick for this example. The '72' is added to the part number, making the number now '900172'.

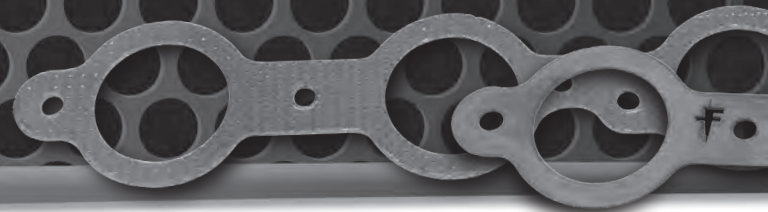

3. BORE SIZE AVAILABILITY: Flatout Copper Head Gaskets are available in several standard bore sizes as well as custom sizes for no additional cost. We recommend the gasket bore be .020" larger than the engine bore. Let's choose a gasket bore diameter of 4.155". Adding these 4 digits to the Flatout part number gives us a completed number of 9001724155.

4. PLAIN COPPER HEAD GASKETS: Flatout Copper Head Gaskets can be ordered with or without our proprietary RCC coating by specifying the 'P' designation after the complete part number.
5). **MLS HEAD GASKETS:** Along with all of our listed MLS Head Gaskets, custom thicknesses and bore sizes are also available by special request. Please call our sales team.
